Ing. Sistemas Computacionales

Materia: Administración de Bases de Datos

Semestre: 8°

Actividad: Mapa Conceptual

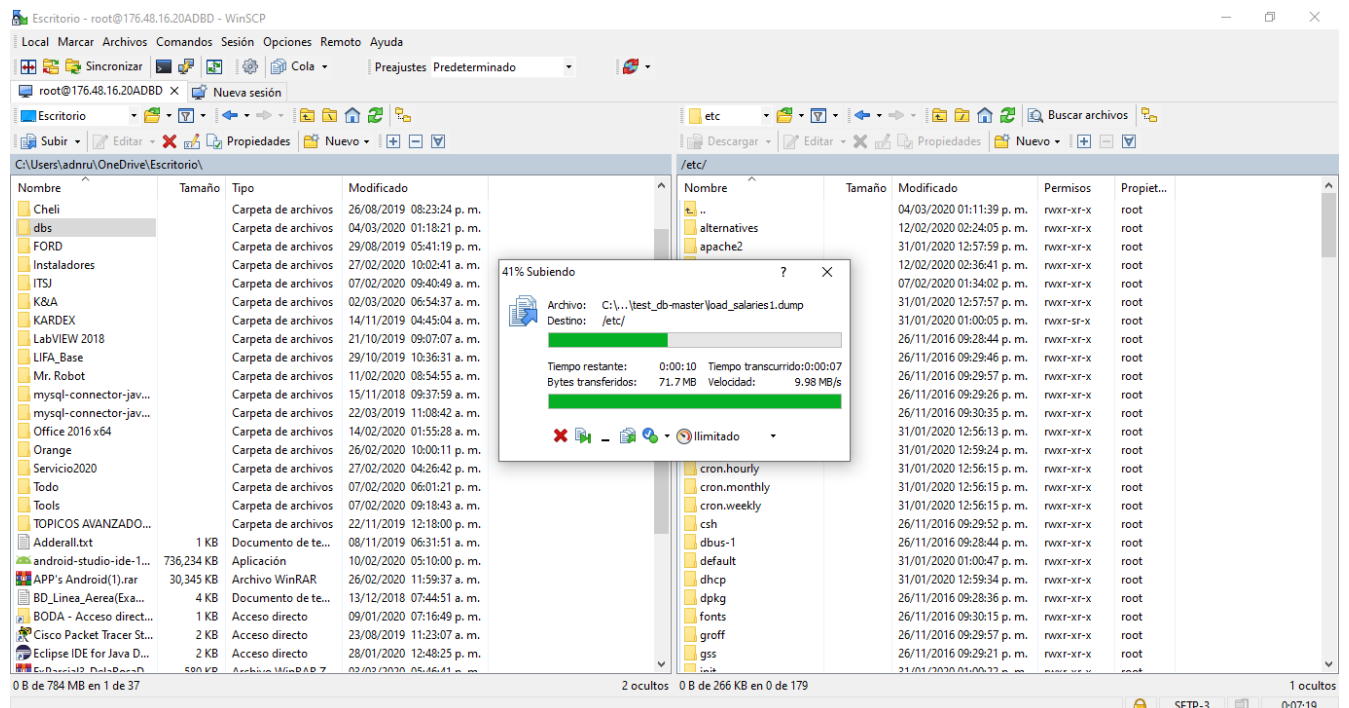

Docente: I.S.C. Salvador Acevedo Sandoval

En esta actividad instalaremos las bases de datos que nos ofrece el propio MySQL dentro de su documentación. Dichas bases de datos deberán ser instaladas en nuestro servidor debían, en el cual tenemos la versión 5.5 de MySQL todo esto con la ayuda de la documentación de la [página oficial](#).

Ya que tenemos las bases de datos descargadas, se creo una carpeta con nombre de "dbs" en donde estarían almacenadas las bases de datos a instalar.

Esta carpeta la pasamos a nuestro servidor debían dentro de la carpeta "etc" de nuestro propio servidor. En mi caso utilice la herramienta de Win SCP el cual nos ayuda a interactuar fácilmente con nuestras carpetas del servidor.

World

Ingresamos a nuestro servidor utilizando PuTTY en el cual ingresaremos a nuestro MySQL. Es importante a la hora de la instalación estar ubicado en la carpeta donde se encuentran los archivos .sql a ejecutar.

```
176.48.16.20 - PuTTY
root@oscar:~# mysql -u root -p
Enter password:

```

MANAGERIE

Ingresamos a nuestro servidor utilizando PuTTY en el cual ingresaremos a nuestro MySQL. Es importante a la hora de la instalación estar ubicado en la carpeta donde se encuentran los archivos .sql a ejecutar.

```
176.48.16.20 - PuTTY
root@oscar:/etc/dbs/menagerie-db/menagerie-db# mysql -u root -p --local-infile=1
Enter password:
Welcome to the MySQL monitor.  Commands end with ; or \g.
Your MySQL connection id is 54
